ATS Deploys In Motion Hotspot Technology (4/21/10)

ATS Medical Services deployed In Motion Technology's patented mobile hotspot technology in its fleet of advanced life support vehicles.

"With In Motion Technology, we provide faster responses, better patient care, and more efficient operations," said ATS founder and CEO, Andy Schultz. "Today, we provide a level of service that is unmatched by other private operators in our area."

ATS' new capabilities are driven by the Gateway's patented mobile hotspot technology that provides reliable, secure connectivity to a variety of wired and wireless devices. This has enabled ATS to integrate dispatch, billing, and patient care reporting systems into a single, paperless system that can be accessed anywhere and saves time and money.

Recently, a heart attack victim transported by ATS received interventional cardiac catheterization care in 14 minutes —
